

Relay Conference CaptioningSM, developed by Caption Colorado, combines real-time captioning and standard relay service to provide relay conference captioning calls for deaf and hard-of-hearing individuals (in participating Sprint Relay state programs). By using an Internet Text Streaming platform supported by skilled captionists, RCC provides highly accurate real-time captioned text for any live conference call.

General Press Release

Sprint Completes Voluntary Telecommunications Services Priority Program Enrollment for Relay Network

OVERLAND PARK, Kan. – November xx, 2005 – Sprint (NYSE: S) today announces that it has completed the final milestone in enrolling Sprint's telecommunications relay service (TRS) in the FCC's Telecommunications Service Priority (TSP) Program. Sprint TRS, communications services available for individuals who are deaf, hard of hearing or have a speech disability, is comprised of a network of call centers geographically disbursed throughout the United States.

Effective October 31, 2005, all 14 Sprint Relay call centers were successfully activated under the TSP Program. Unlike other TRS providers, Sprint's TRS network is designed to reroute traffic to other Sprint Relay centers across the country to continue uninterrupted service with minimal customer impact.

"In less than five months, we were able to complete the implementation of the FCC's TSP program," said Mike Ligas, director of Sprint Relay. "Sprint is dedicated to providing effective communications services for individuals who are deaf or hard of hearing and we recognized the urgency to ensure reliable communications during emergency situations."

In 1988, TSP program was established to prioritize the restoration of telephone service to critical facilities and agencies at times when telecommunications companies are typically overburdened with service requests, such as after a natural disaster. In the event of a regional or national crisis, the program restores telephone services most critical to national and homeland security on a priority basis.

Sprint Relay Portfolio of Services

Sprint has 15 years of experience in providing relay services to persons who are deaf, hard of hearing or deaf-blind or who have a speech disability to communicate with hearing persons on the phone. Sprint offers relay services through an intelligent platform to the federal government, 30 states, the Commonwealth of Puerto Rico and New Zealand. Sprint's experience in the field provides the assurance that all Sprint Relay services will meet or exceed Federal Communications Commission requirements for telecommunications relay services (TRS). Relay service is available 24 hours a day, 365 days a year, with no restrictions on the number of calls placed or call length. For more information, visit www.sprintrelay.com.

Sprint Government Systems Division (www.sprint.com/government) is based in Reston, Va., and offers the full range of Sprint product and service offerings for federal and state government customers.

About Sprint Nextel

Sprint Nextel offers a comprehensive range of wireless and wireline communications services to consumer, business and government customers. Sprint Nextel is widely recognized for developing, engineering and deploying innovative technologies, including two robust wireless networks offering industry leading mobile data services; instant national and international walkie-talkie capabilities; and an award-winning and global Tier 1 Internet backbone. For more information, visit www.sprint.com.

How to Reach Us

Digging or Drilling

Hours: 7 a.m. - 6 p.m.,
Monday - Friday

Before you dig or drill on your property, call AT&T Oklahoma to avoid damaging your telephone and other underground lines. Please give us 48 hours notice. 1-800-622-6543

For after-hours emergencies only, call our Repair Service Center.

Appendix Q: Copies of Relay Newsletters

Relay Oklahoma

Want to Communicate? Go Ahead.™

Relay Oklahoma is a free service that provides full telephone accessibility to people who are deaf, hard-of-hearing, deaf-blind, and speech-disabled. This service allows text-telephone (TTY) users to communicate with standard telephone users through specially trained Communications Assistants (CAs).

Calls can be made to anywhere in the world, 24 hours a day, 365 days a year with no restrictions on the number, length, or type of calls. All calls are strictly confidential and no records of any conversations are maintained.

Anyone wishing to use Relay Oklahoma simply dials the toll free relay number to connect with a CA. The CA will dial the requested number and relay the conversation between the two callers.

An overview of Relay Oklahoma's services are included on the back of this flyer. In addition, printed information detailing each service in depth is available by calling Sprint Relay 24-hour Customer Service at 1-800-676-3777 (TTY/Voice).

DIAL   TO PLACE
A RELAY CALL!

7-1-1 is a new statewide telephone relay number that connects standard (voice) telephone users with deaf, hard-of-hearing, and/or speech-disabled people who use text telephones (TTYs).

Relay users can now simply dial 7-1-1 to connect with Relay Oklahoma. This allows easier access, particularly for less experienced relay users such as businesses or friends and family of TTY users.

CUSTOMER DATABASE PROFILE

A Customer Database Profile stores an individual relay user's call preferences, expediting call processing. You can set up your Customer Database Profile by contacting Sprint Relay Customer Service at 1-800-676-3777. Representatives will take your request and can set up your profile while you are on the phone or send you a form to complete. They are also available to answer any questions you may have.

For additional Customer Database information, contact Sprint Relay 24-hour Customer Service at 1-800-676-3777 (TTY/Voice).

CONTACTS FOR MORE INFORMATION

1-800-676-3777 ■ Sprint Relay Customer Service TTY/Voice/ASCII

1-800-676-4290 ■ Servicio al Cliente de Sprint Relay TTY/Voz/ASCII

1-800-855-4000 ■ Sprint TTY Operator Service TTY Operator surcharges may apply.

Customer Service is available to answer any questions or to receive customer suggestions, comments or complaints. When calling about a specific incident, please remember to provide the CA's identification number, date, and time of call. Or, for assistance during a relay call, callers may ask to speak to a supervisor. Customer Service will also accept requests for Relay Oklahoma brochures, outreach materials, presentations, or any other additional relay information.

VOICE ■ 1-800-522-8506

Standard telephone users can easily initiate calls to TTY users. The CA types the hearing person's spoken words to the TTY user and reads back the typed replies.

TTY ■ 1-800-722-0353

A person who is deaf, hard-of-hearing, deaf-blind, or speech-disabled uses a TTY to type his/her conversation to a CA, who then reads the typed conversation to a hearing person. The CA relays the hearing person's spoken words by typing them back to the TTY user.

VOICE CARRY-OVER ■ 1-800-722-0353

Voice Carry-Over (VCO) allows hard-of-hearing users to speak directly to hearing people. When a hearing person speaks to you, a CA serves as your "ears" and types everything said to your TTY or VCO phone. Two-Line VCO. Two-line VCO allows a customer with two telephone lines and/or a computer to use one line for speaking directly to a hearing person while the other

line is used to receive the hearing person's typed responses. This feature provides a more natural flow of conversation without the pauses of single-line calls.

VCO to TTY. The CA types what the VCO user says to the TTY user. Whatever the TTY user types goes directly to the VCO user's TTY or VCO phone equipment to be read.

VCO to VCO. The CA serves as both parties' "ears", typing what is said on both ends of the call.

VCO to HCO. The VCO user speaks directly to the HCO user. The HCO user's typed responses are sent directly to the VCO user.

HEARING CARRY-OVER ■ 1-800-722-0353

Hearing Carry-Over (HCO) allows speech-disabled users with hearing to listen to the person they are calling. The HCO user types his/her conversation for the CA to read to the standard telephone user.

HCO to TTY. The HCO user listens while the CA voices the TTY user's typed message. The HCO user types his/her conversation directly to the TTY user.

HCO to HCO. HCO users may contact other HCO users through Relay Oklahoma. The CA will voice to both parties what is typed on each user's TTY.

SPEECH-TO-SPEECH ■ 1-877-722-3515

Specially trained CAs serve as the speech-disabled user's voice and repeat his/her responses to the called party. Sprint's unparalleled equipment and exceptional STS CA training ensure that speech-disabled users will be heard and understood. There may be instances where an STS user will be asked to repeat

his/her message to ensure that it is conveyed correctly.

SPANISH RELAY ■ 1-800-722-0353

TTY users can type in Spanish and the conversations will be relayed in Spanish to the called party. TTY users can also request Spanish to English or English to Spanish translation via relay. To make a Spanish Relay call, dial Relay Oklahoma and instruct the CA how you want your call translated.

COMPUTER (ASCII) CALLS ■ 1-800-522-5065

Computer users can access Relay Oklahoma directly. Set your communications software to the following protocols at speeds ranging from 300 to 2400 baud: (Note: It may be helpful to set your "time out" to 100 seconds.)

■ 8 Bits ■ No Parity ■ 1 Stop Bit ■ Full Duplex

When calling at a rate of 300 baud or below, follow the above settings using Half Duplex.

900 SERVICES ■ 1-900-230-4041

Relay users dial a *separate toll-free 900 number* to connect with Relay Oklahoma. The CA will then dial the requested outbound 900 service number. The caller is responsible for direct billing. Billing will begin upon connection to the 900 number. Rates vary depending upon the 900 service called.

INTERNATIONAL CALLS

Relay Oklahoma allows you to place and receive calls to and from anywhere in the world (using English or Spanish). Callers from a country outside the US may also access Sprint Relay via 1-605-224-1837.

EMERGENCY

In case of emergency, relay users should call the TTY-equipped 9-1-1 Center or emergency services center in their community. For more information on how to

obtain emergency numbers in your area, call Sprint Relay Customer Service at 1-800-676-3777.

DIRECTORY ASSISTANCE

Relay Oklahoma will relay Directory Assistance (DA) calls between TTY users and the Local Exchange Carrier (LEC) DA operator. Once the caller makes the DA request, the CA will contact the appropriate LEC DA operator. After obtaining the number, the caller may choose to place the call through Relay Oklahoma or dial it directly TTY to TTY.

TTY PUBLIC PAYPHONES

The Federal Communications Commission (FCC) issued an order outlining an interim plan for access to public payphone service through relay services. The order states that:

- All local calls from TTY payphones are free of charge.
- Toll calls can be billed through calling cards and prepaid cards.

TTY users who wish to use a coin TTY payphone can use Relay Oklahoma to assist in connecting calls. There are several ways to bill non-local calls:

- Collect ■ Third party ■ Calling card ■ Prepaid card

Mr. Rex Moers, Sprint-Oklahoma Relay Account Manager
1025 Northpark Drive, Suite - C
Ridgeland, Ms. 39157

Dear Mr. Moers:

The Oklahoma School for the Deaf Statewide Alumni Association (OSD-SAA) is a 501(c)(3) non-profit organization and is pleased to once again remind Sprint that we have demonstrated a longstanding history of spreading Sprint-Relay awareness and of collaborative advocacy on behalf of same, and once again, OSDSAA stands ready to enter into an immediate Game-coordinating role with "Relay Oklahoma Advisory Council " and Sprint\Relay as supporting co-sponsors of the upcoming "Deaf Crazy Olympics" event which will take place September 29, 2007 in Tulsa, Oklahoma.

Historically, OSDSAA's Crazy Deaf Olympics (DCO) event is an outdoor games event with an Olympic theme and the objective of the popular event is to develop "Community bonds" from both, the hard of hearing people and the Deaf people regardless of where they attended schooling. This yearly Community bonding creates prime marketing attention for Sprint\Relay Oklahoma.

This year, The city of Tulsa, Oklahoma has graciously accepted responsibility for being our D.C.O host, and if past Olympic gaming turnouts are any indicator for future success, then we can easily predict to pull in an average of 250 contestants and fans in regional attendance and contestant age ranges from 12 to 80, broken into three separate age related brackets, (1)Children under 12, (2)Young adults, regardless of which school is attended and (3)Senior Citizens

We are honored to be asking for the return participation of Sprint\Relay Oklahoma.

For Sprint\Relay Oklahoma, We are offering:

- 1. Booth Space and Table for Sprint Relay materials distribution. This table will include distribution of nick-nacks with "Relay Oklahoma -Sprint" (SprintVRS.TV)**
- 2. The opportunity to initiate Opening "Olympic-themed" speech\ceremonies**
- 3. The opportunity to initiate "Lunch-distributed-by-Sprint" speech**
- 4. The opportunity to hand out "Olympic medals" to DCO players at conclutory session. (OSDSAA will purchase these in advance)**

5. The opportunity to personally meet with fans and curious passersby and of course have a photo-op session with them personally.
6. The opportunity to make any "Developments By Sprint-Relay" announcements such as any developments on the "Don't Hang Up" on a relay call.
7. The opportunity to announce to the public, that Sprint will continue to award "Best sportsmanship" Awards to the October 13th Homecoming event at O.S.D. in Sulphur.
8. Executive Officers of OSDSAA will continue to sport a Sprint Logo on the T-shirts being designed specifically for the DCO event. Preferred wording choices will remain at Sprint's discretion.
9. The Executive Team has also developed a challenging new game called "Sprint Relay" and it is our sincere hope you will be in attendance to not only witness it in action, but to introduce such.

OSDSAA proposes to continue collaborating with Relay Oklahoma\Sprint to carry out Sprint's mission statement of maximizing telecommunications accessibility awareness to the deaf and hard of hearing communities who come in attendance.

OSDSAA humbly asks for assistance in providing "outdoor lunch" for Olympic players and fans in attendance. We estimate approximately a request for \$2,000 for food catering services, perhaps from "Subway" or Kentucky Chicken (or similar resources), including the first drink.

OSDSAA will deal with any other subsequent drinking needs and plan accordingly for this.

As you can see, OSDSAA wishes to continue not only a short term immediate engagement, but also a long term engagement continuously collaborating with Sprint\Relay Oklahoma's best interests to provide awareness of Oklahoma Relay's myriad accessibility services resulting from VRS and Captel usage, among others.

OSDSAA would welcome the opportunity to continuously provide this educational awareness to our fellow Oklahomans and ask for an expedited approval of \$2,000 to begin laying the food catering groundwork.

Sincerely,

Portia D. Weed

Subject: [OMPDeafNews] Re: Deaf Awareness Day 2007 at the
State Fair- OAD PRESIDENT CHRIS REAGLE

August 16, 2007
Chris Reagle, President
Oklahoma Association of the Deaf

**Re: Deaf Awareness Day 2007 at the State
Fair**

Dear Exhibitor/Vendor:

The Oklahoma Association of the Deaf (OAD), in collaboration with the Central Oklahoma Association for the Deaf and Hard of Hearing Inc. (COADHI), Moore Deaf Fellowship, First Southern Baptist Deaf Church, Oklahoma Registry of Interpreters for the Deaf (OKRID), and the Interpreter Training Program at Oklahoma State University, Oklahoma City (ITP/OSU-OKC), is pleased to announce that Deaf Awareness Day 2007 at the Oklahoma State Fair Oklahoma City is scheduled for Friday, September 14, 2007, 10 am-10 pm, in the Carriage Hall Building, and we would like to personally invite you to join us.

Last year's DAD was successful in bringing together the Deaf and Hard of Hearing community and their supporters, and the general public to raise awareness, educate and inform, and entertain. This was accomplished by the participation of a bevy of performers, interpreters, exhibitors, and supporters from the Deaf/Hard of Hearing and hearing community. We were thrilled at its success,

which not only benefited the Deaf and Hard of Hearing, but enlightened the hearing as well.

We are very excited about this year's program, which again is designed to inform and educate the hearing and those who have experienced hearing loss of available programs/services, and provide a variety of interpreted shows throughout the fair, while showcasing the talents and artistry of the Deaf community and their supporters. Last year we were privileged to be given the all-day use of the Carriage Hall Building, with a stage, air conditioning and the space to accommodate exhibitors, artists/vendors, performers, diners and visitors. We will again this year get exclusive use to this building.

And once again this year, there will be no booth fees, and free admission and parking permits will be provided for all the exhibitors, vendors, artists, performers and interpreters. Throughout the day, exhibitors/vendors, such as yourself, will be able to disseminate information and exhibit and sell a range of artwork and crafts, and equipment and assistive devices beneficial to individuals with and without deafness or hearing loss. We are hopeful that you and your staff will be able to participate in celebrating with us at this year's Deaf Awareness Day at the Oklahoma State Fair. Our goal is to celebrate the progress, pride and promise of the Deaf and Hard of Hearing community and to educate hearing people that there is no barrier too great in relation to communication; and thereby, making advances in bridging the communication gap between the Deaf and Hard of Hearing, and the hearing community. Your participation will contribute to achieving this goal. If you are able to participate, please complete the attached registration form (provided by COADHI) and forward it to the OAD office. (there was no attachment so please contact)Mari Buckley at bucklml@osuokc.edu

For further information or assistance, please feel free to contact me at phone: 580 622 4883 or 800 919 3532 or email: OADPresident@brightok.net or Mari Buckley, COADHI Board Member, at bucklml@osuokc.edu or work phone 405-945-3290(V) or the COADHI office at coadhi78@yahoo.com or 405-236-5513.

We look forward to seeing you there!

Sincerely,
Chris Reagle, President
OAD

See, Hear & Connect

Public Access Videophone

The Public Access Videophone (PAV), provides communication for access for people who do not have access to the telephone in a location without one. The PAV functions as a standard payphone utilizing credit card access and supports all digital types for a wide variety of users. The PAV is now a standard communication tool and is fast becoming a popular method of communication.

The PAV meets the telecommunications access needs for everyone. The Public Access Videophone functionality includes:

► Access to the Public Service Telephone Network

- The PAV "PAV" features for standard calls and drops costs for payment.

► A One-Touch Speed Dial for Telecommunications Relay Services

- One-touch "Connect" directly into a Voice Relay Service (VRS) provider.
- One-touch "Connect" directly with an Internet Relay Service provider.
- ATTS and VRS calls are free in the relay. The business is free time, which is a benefit for telecommunications.

► Visual Paging and Information Alert Display

- When a call is received, support.
- Visual page for emergencies, weather information, and about security alerts.
- Visual Public Address announcement.

► Equipped with an Alphanumeric Keyboard and Mouse

- For lower calls, can be accessed through a touch screen with the TV capabilities and display.

► Point to Point Video Calls

- Video calls can connect directly with other types of video equipment, including webcams that are 10.33 megapixels.

► Access to Web-Based E-Mail Services

- Check your email, view the mail, and others.

► Accepts Credit Cards

- No need to carry the unit.
- Accepts all forms of credit cards: VISA, M.C., and others.

► REVENUE Generating Videophone

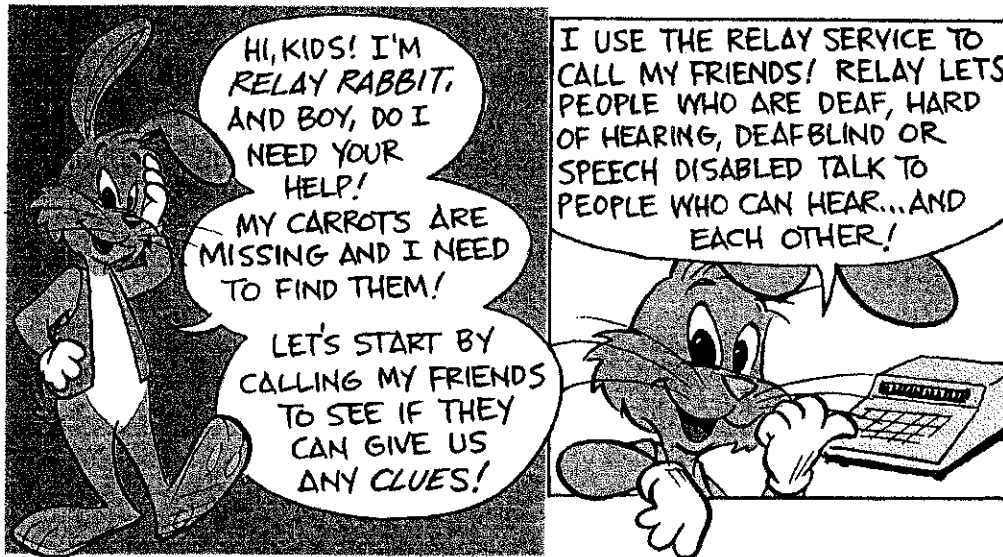

- Supports multiple revenue streams:
 - Ability to set a fee for video, video, and point-to-point, email access, video mail and others.
 - Video, Still Images, Still Images, Moving Images.
 - Any message can be programmed to appear on the screen.
 - Deployed when the phone is not in use.

► Anti-Vandalism Hardware

- Safe and sturdy are made with stainless steel.
- Supports all types of credit cards.
- Built-in 100% protection.

Oklahoma Relay provides a full telephone interpreting service between people who can hear and those who are deaf, hard-of-hearing, deaf-blind or speech-disabled. Communications Assistants (CAs) have computers that enable them to hear the voice users as well as read the signals from the TTY users.

The service is available for Oklahomans 24 hours a day, 365 days a year. There are no restrictions imposed on Relay calls. Confidentiality for relay users and CAs is assured by Federal Communications Commission (FCC) Ruling.

New Video Relay Service

This is a free relay service for those who feel most comfortable expressing themselves through American Sign Language (ASL). This innovative solution allows the consumer to communicate with a live video interpreter either via a computer with a video camera or via videophone. The video interpreter signs the telephone conversation with an ASL user and voices to a hearing person via standard telephone. This allows the participant to see expressions and gestures during the call. Try making a free (both local and long distance) video relay call today at www.okvrs.com or H.323 IP address- SPRINTVRS.TV
